GENERAL GUIDELINES

- We do not discriminate between students on the basis of their caste, creed, religion, socio-economic background, intellectual and physical ability, we also believe that the school's role is to provide exposure to a wide variety of activities. Keeping this in mind, we have regular sports, music, art, craft, dance, etc. activities and ensure that every student participates.
- Books for the primary section are kept in the school to decrease the burden of bag. We have created ample space in the class-rooms to store books and stationery. Please do not expect students to bring all books and note books home every day. Students from primary section bring only that subject's book home, for which HW has been assigned.
- Sports are a compulsory activity every day for all students. The school has a system of physical training process that aims to make each child physically fit.
- We do not encourage rote learning we believe in having scientifically proven methods where the child learns without mugging up.
- The school uses English as the medium of instruction.
